

# KIRK'S MOOD RINGS

Your Mood Ring allows you to look at yourself in a colorful way. Your own energy will cause the ring to change colors to reveal your inner emotions. Relax and give the stone time to warm up to your hidden passions.

## WHAT DO THE COLORS MEAN?

### BLACK

Tense, Nervous, Harassed, Over-worked and prone to take a life any minute.

### GRAY

Anxious, Nervous, Strained and wound tighter than a ball of rubber bands

### AMBER

Average mood, Active, Stress free, and all around pretty boring

### BLUE-GREEN

Inner emotions charged, Somewhat relaxed and still confused why the Kardashians are still on our planet.

### BLUE

Relaxed, At ease, Calm, Lovable and just want to curl up with something that has AA batteries.

### DARK BLUE

Very happy, Ready for romance, Passionate and need to have sex within the hour or you'll explode.
